

**PUBLIC SUMMARY**

**License to Operate a Private Remote Sensing Space System**

On May 2, 2018, the Commercial Remote Sensing Regulatory Affairs Office of the National Oceanic and Atmospheric Administration (NOAA CRSRA), an agency of the Department of Commerce, granted a license to Space Exploration Technologies, Corp. (SpaceX), to operate a private remote sensing system. The system consists of low-resolution cameras on the second stage of the SpaceX Falcon 9 launch vehicle, which are utilized to monitor the vehicle and payload deployment during Falcon 9 missions. The Falcon 9 second stage and licensed system will reach orbits that include geosynchronous and low-Earth.

**Name, mailing address and telephone number of the licensee**

Space Exploration Technologies Corp.
