

## **Tempus Global Data Private Remote Sensing System License Public Summary**

On July 15, 2014, the Commercial Remote Sensing Regulatory Affairs Office of the National Oceanic and Atmospheric Administration, an agency of the Department of Commerce, granted a license to Tempus Global Data, Inc. to operate a private, commercial, space-based, remote sensing system named Tempus. Tempus consists of a constellation of Geostationary Electro-Optical Imaging, Hyperspectral Sounding satellites spaced approximately 60 degrees apart to collect weather observations and environmental data for the entire globe.

The Tempus satellite system is licensed to collect images of the earth in the following bands:

Panchromatic (0.38 – 0.77  $\mu\text{m}$ ) with a 1.0 km resolution

Infrared Hyperspectral (4.4 – 6.1  $\mu\text{m}$  and 8.9 – 14.6  $\mu\text{m}$ ) with a 4 km resolution
