Subject: Private Remote Sensing System License Summary for HSAT-1

On 01 December 2016, Commercial Remote Sensing Regulatory Affairs office of the National Oceanic and Atmospheric Administration, an agency of the Department of Commerce, granted a license to Harris Corporation to operate the private, space-based, remote sensing system named "HSAT-1".

HSAT-1 is a 6U-sized cubesat internally-funded by Harris Corporation to function as an orbital testbed for technology development. HSAT-1 is licensed to collect 698 meter resolution panchromatic images of the Earth, as well as deployable appendages on the satellite. The satellite will operate in a circular, sun-synchronous, low earth orbit (approximately 500 km).

The Licensee for HSAT-1 is:

Harris Corporation
Space and Intelligence Systems
PO Box 37
Melbourne, FL USA 32902-0037
