Inviting Guests via the Envoy Mobile App

Envoy

Visitor Management System

Step 1: Download the Envoy mobile app

You can use the Envoy mobile app on any iPhone running iOS 13 or higher or Android 7.0 or higher.

Step 2: Create an account

1. Open Envoy Mobile, and tap "Log in or sign up."
2. Enter your work email address.
3. Check your email inbox on your phone and follow the instructions to confirm your email address.
4. Choose which office location you would like to use the app with. You can always change locations later.
5. Choose where you would like to receive notifications and alerts preferences. Your Envoy administrator will set notification preferences for your location, but you can set the preferences that are right for you.
6. Take or upload a profile photo. Don't worry, you can always change the photo later if you need.
